

TempTor

Erin Boeger, Travis Dowdy, Sutton Cowperthwaite, Maryjane Clark

Vision

To provide the easiest way to monitor temperatures in commercial equipment and display them in a user-friendly format.

- Target Audience: restaurants, micro breweries, hospitals

Methodologies

Agile: ★★★★★

- Individuals and interactions over processes and tools:
 - Pair programming
 - Bi-weekly scrums
- Working software over comprehensive documentation:
 - Developed working prototypes early
 - Iterated programming, building, and testing phases

TDD: ★★★★★

- Wrote tests first, then used code to pass tests.

Tools

RaspberryPi

YARD

Yay! A Ruby Documentation Tool

GitHub

RSpec

Challenges

- Learning Ruby on Rails
 - Adequate documentation for knowledge sharing
- Developing personalized hardware
- Connecting server and sensor
