README

Temptor is a team collaboration of students for the University of Colorado at Boulder CSCI-3308

The basic idea is to have various rasperry pi devices track temperatures and report them back to a central server. The central server is a Ruby on Rails application that will record and graph the changes.

The team is: Erin Boeger Maryjane Clark Sutton Copperwaite Travis Dowdy

Generated on Tue Apr 21 14:08:53 2015 by yard 0.8.7.6 (ruby-2.1.1).

Class: ApplicationController

Inherits:	ActionController::Base	show all
Defined in:	app/controllers/application_controller.rb	

Direct Known Subclasses

SensorTypesController, SensorsController, TemperaturesController, UsersController

Generated on Tue Apr 21 14:08:53 2015 by yard 0.8.7.6 (ruby-2.1.1).

Module: ApplicationHelper

Defined in: app/helpers/application_helper.rb

Instance Method Summary   ([collapse](#))

- (Object) **collection_of**(items, opts = {})

  main collection helper method.

Instance Method Details

- (Object) **collection_of**(items, opts = {})

main collection helper method. feed in an array of items or object relation.

```
collection_of(:users) will give User.all
collection_of(@program.users) will give all users for @program
options collection_of(:users, {:order => "last_name"}) will give User.all sorted by last name
```

[[View source](#)][[View source](#)]

Class: Sensor

Inherits:	ActiveRecord::Base	show all
Defined in:	app/models/sensor.rb	

Overview

Schema Information

Table name: sensors

```
id          :integer          not null, primary key
name        :string
description :text
ip_address  :string
type_id     :integer
created_at  :datetime         not null
updated_at  :datetime         not null
```

Generated on Tue Apr 21 14:08:53 2015 by yard 0.8.7.6 (ruby-2.1.1).

Class: SensorType

Inherits:	ActiveRecord::Base	show all
Defined in:	app/models/sensor_type.rb	

Overview

Schema Information

Table name: sensor_types

```
id         :integer         not null, primary key
name       :string
created_at :datetime        not null
updated_at :datetime        not null
```

Generated on Tue Apr 21 14:08:53 2015 by yard 0.8.7.6 (ruby-2.1.1).

Class: SensorTypesController

Inherits: ApplicationController	show all
Defined in: app/controllers/sensor_types_controller.rb	

Instance Method Summary

(collapse)

- (Object) **create**

    POST /sensor_types POST /sensor_types.json.

- (Object) **destroy**

    DELETE /sensor_types/1 DELETE /sensor_types/1.json.

- (Object) **edit**

    GET /sensor_types/1/edit.

- (Object) **index**

    GET /sensor_types GET /sensor_types.json.

- (Object) **new**

    GET /sensor_types/new.

- (Object) **show**

    GET /sensor_types/1 GET /sensor_types/1.json.

- (Object) **update**

    PATCH/PUT /sensor_types/1 PATCH/PUT /sensor_types/1.json.

Instance Method Details

- (Object) **create**

POST /sensor_types POST /sensor_types.json
